RECYCLE ME
● GREAT LAKES ●

You can recycle your blue license plate!

The plates are made out of either steel or aluminum, which are valuable recyclable materials!

Where can I Recycle My License Plate?

- Check with your local recycling program to find out if they can be placed in your curbside bin or taken to your drop-off location.
- Look up “Scrap Metal Recyclers” online or in the phone book. These businesses will take your old license plates.

Remember to cut the license plate in half, bend a corner, or mark it with a permanent marker to prevent theft and fraud.
