LETTER OF NOTIFICATION

RE: Charter Township of West Bloomfield – Water Tower Tank Painting

Dear Valued Residents:

We are taking this opportunity to advise you of a capital improvement project that will soon be starting in your area. The West Bloomfield Township Water & Sewer Department will be performing maintenance painting of the elevated water tank located along Commerce Road and adjacent to the Township Library in the Spring Meadow subdivision. The qualified Contractor selected for the project is H2O Towers, Inc. based out of Saline, Michigan. They intend to commence work on August 26/27, 2010. Completion of the project is anticipated to be September 20, 2010.

This notification is being sent to you as a courtesy to advise you of these activities so you may inform your association members or be in a position to answer questions if they are posed to you. The tank will be pressure cleaned with water and will then have a beige color paint applied as a primer coat. The final coat of paint will be medium blue in color (similar to the existing/original color of the tank when constructed back in 1988). The Contractor's activities should not impact areas near the tank site and their work activities will be limited to the public right of way and physical tank site.

Please feel free to call me at **248.451.4784** if you should have any questions regarding this project.

Very truly yours,

Garry Simpson, Superintendent
West Bloomfield Township
Water & Sewer Department
